Re: US BKPT CT FL FT LAUDE- P000005

To whom it may Concern,

I recently pulled my credit report from and saw that you reported that I was late on the above-referenced account. I don't recall being late on this account. Furthermore, although it is incumbent upon you to notify me prior to any negative report, I never received any such notification. When I disputed this information with the credit bureaus, they responded and said that they inquired as to the status of this account, and your organization "verified" that the account was reporting correctly. I hereby request that you conduct an investigation into this account and forward me any records or information in your possession that you used when "verifying" this information to the credit bureaus.

Specifically, please forward me the payment and billing history for this account within 30 days of the date of this correspondence, and if you do not have any substantiating documentation, please immediately contact the credit bureaus and instruct them to delete the late payment (SPECIFIC DATES) on this account immediately.

Sincerely,

Carlos Testcase
