

To future high income earners...

If you have received this letter you have been chosen to participate in this years most lucrative passive income opportunity ever.

I got tired of driving in Atlanta traffic only to get home long after the dinner hour is over, from my Job to a mound of bills that I could not afford to pay. Sitting at work constantly trading my hours for dollars. I'm over 50yrs old and these are hours I'll never get back.

My name is Derek Newton and together we are going to be financially successful. my mentor and success coach Phil Johansen will set up a passive financial stream of income that you your family can live off of for a lifetime. You'll have the freedom to do whatever you want, go where-ever you want. No more alarm clock mornings!

Most people graduated from college with no savings and least 100k worth of debt to have to deal with, only ending up working at 9 to 5 job for for the rest of their lives trying to get ahead of all the expenses. 401K's won't cut it, my father had one, I had one, all that money it took years to save gone already with no savings available.

My father recently passed at 94yrs of age this year with no savings and 20k in credit card debt and mortgage owed on the house that he lived in for 30+ years. I saw that and said that I was not going to end up like that. This opportunity couldn't have come at moment sooner, as I now am 59 yrs old with age clock ticking away.

Your slave work cycle started at child hood and you have been conditioned at birth to fail in society as a working educated slave destined to work at one corporation after another. Unless you take action now to change your life, or let society and the job market run it for you until the day you die. This to me is no way to earn a living or live a life. Only the CEO's and business owners will be able to survive.

Online digital affiliate marketing can change all that for you. Teenage kids with no college degrees and very little experience are making more than doctors, lawyers, and most Harvard graduates. I never made this kind of money in my teens because the internet wasn't for public use many years ago.

This is digital marketing, This is not MLM, (multi level marketing) or stocks, trading EFT's etc.

You will be working with a team of real people who are, or going to be financially successful. Please check out my webpage and watch the free video with my mentor Phil. He will tell his story and explain the financial cycle of life that most people lead.

I know you want to set up your parents financially for life, yourself, your family/ kids too. Get back all of that FREE time that you lost working 40 to 60 hrs a week for company that you continue to make richer and richer. The thing is that if you die they will just replay you with the next educated slave. Is that the kind of life that you want? Work the hours that YOU want and not for somebody else. Go on vacations when you want to. ~~No more working~~ a 9 to 5 job unless that makes you happy. Sleep in late on Mondays without having to worry about 1hr traffic jams in the morning or evening.

Everyday could be like Saturday if you want.

This is limited time offer with special discounts and free extras. Don't waste another minute thinking about it. Get started RIGHT NOW! Once my mentor phil has all the students he needs he will close enrollment. Please hurry and sign up after watching the videos.

Goto: derekfreedom.com for more info and a free video. After you enter your email you can contact me with your questions.

GET FINANCIALLY FREE AND HAPPY EVERYONE!!

Sincerely

Derek Newton
