WEB TRACKING PROTECTION

Stop creepy tracking from Facebook and Google.

DuckDuckGo's powerful tracker blocking, in our browser and extension, stops trackers and creepy ads before they even load, evading hidden data collectors and speeding up websites.

 [Learn more](#)

EMAIL PROTECTION

Intercept and remove email trackers.

85% of emails sent through Duck Addresses contained hidden email trackers before we stripped them out. Email Protection zaps most trackers and forwards email to your regular inbox so you can read in peace.

APP TRACKING PROTECTION

Block app trackers, day or night.

Over 96% of popular free Android apps we tested allow other companies to invade your privacy, like using your location to map everywhere you go. Stop most of their spying and take back control on Android!

 [Learn more](#)

It's a myth that companies need to track you to make money.

DuckDuckGo has been free to use since day one, and private search ads have kept us profitable for

nearly a decade. When you search for “car” we show you a car ad — it's that simple.

Still have questions?

What is DuckDuckGo?

DuckDuckGo is an independent Internet privacy company that aims to make getting privacy simple and accessible for everyone. Our *free web browser* for *iOS*, *Android*, *Mac*, and *Windows* lets you search and browse the web, but — unlike Google Search and Chrome — we don't track your searches or browsing history, and we block other companies from trying to track you, all by default. [Learn more.](#)

ABOUT DUCKDUCKGO

DuckDuckGo is the independent Internet privacy company for anyone who's tired of being tracked online and wants an easy solution. Unlike Chrome and other browsers, our free, go-to browser comes with over a dozen powerful privacy protections built-in, including our search engine that replaces Google and doesn't track your search history. The DuckDuckGo browser's uniquely *comprehensive privacy protections* are used by tens of millions of people to protect their everyday online activities, from searching to browsing, emailing, and more. Available for download on *Mac, Windows, iOS, and Android.*
