Aug 2023: Need to send a fax? We've moved this capability to <https://payperfax.com/>

Test Your Fax Machine with the Faxbeep Fax Test Service

Use this simple & free fax tester to verify your fax machine's ability to send faxes. We provide a free test fax number to which you can send a test fax and have it appear online.

Need to quickly check your fax machine by faxing to a test number? We've got you covered. We have numbers in the US and the UK for you to test with. Send a fax to one of these numbers, and it will appear on this page below within seconds.

Our user-friendly Fax Test Service is a reliable and convenient way to ensure your fax machine or multifunction printer is functioning correctly. Give it a try now!

	us US test fax number	gb UK test fax number
If dialed locally	1 (929) 207-0142	(020) 380-89435
If dialed internationally	+19292070142 <small>(click to copy)</small>	+442038089435 <small>(click to copy)</small>

How to test your fax machine

- 1. Prepare your test fax**

Create a single-page or multi-page black & white test fax. The content of the fax is irrelevant for this test, so feel free to be creative. You can also just use a blank page, but this will give you less information.

2. Send the test fax

Send your test fax to +19292070142 or +442038089435 from the fax machine or multifunction printer you wish to test. These numbers in the US and the UK, respectively, but you can dial them from anywhere in the world.

3. Await fax arrival

After sending your fax, wait a minute or two, then refresh this page for it to appear on this page below. During this time our system processes your fax for display.

4. Review your received fax

Once your fax appears on the page, check it, noting the orientation, quality, masked sender number and your sender ID.

5. Troubleshoot

If your fax doesn't appear after a few minutes, review your fax settings, ensuring everything is configured correctly, and try again.

Fax Tester: A Reliable Way to Assess Your Fax Machine's Performance

What is the number of the HP fax test service?

What is the number of the Canon fax test service?

What is the number of the Teistra fax test service?

Privacy note: Any fax sent to the fax tester service remains publicly visible for 30 days, after which it is automatically deleted. If you need a fax removed sooner, [contact us](#).
