

7 Using Color Correction

En

For better print results, the use of color correction is recommended.

F

1. Choose whether to use color correction.

E

2. Check that the paper displayed on screen is actually loaded and then select <OK>.

F

3. Select <Start> and correct the colors by following the on-screen instructions.

8 Specifying the Network Settings

Specify the settings for connecting the machine to a network. Before proceeding, check that the computer and router are correctly connected to the network.

Wireless LAN

1. Check the router's "SSID" and "Network key."

2. To configure the settings, select <Yes> on the operation panel.

3. Check the message and select <OK>.

4. Select the network with a matching SSID.

5. Enter the password (network key) and select <Apply>.

Wired LAN

Connect the router to the machine with a LAN cable and then select <No> in the screen for choosing how to connect to the network.

9 Setting Up the Toner Replenishment Service

Use this procedure to set up the toner replenishment service. To use this service, you must enter into an agreement beforehand.

1. Check the message and select <Next>.

2. Check the conditions of use, and then choose whether or not to use the service.

- To use the service: <Accept>.
- To not use the service or not enter into an agreement: Select <Do Not Accept> and proceed to step 10.

3. When <Connection was successful> appears, select <OK>.

10 Ending the Setup Guide

Check the description in the Application Library and then select <End>.
